

LIVESTOCK MAGIC

2036 POLLACK CAGE

An Owen masterpiece designed from Channing Pollack's original model. A cage of birds is covered with a hand-somely trimmed foulard, carried forward and tossed in the air to vanish. The cage has a floor and appears to be a separate unit setting on a beautiful wood table of colonio design. The highly polished cage will easily hold 6 to 8 doves. The release mechanism is fully automatic with a safety device incorporated. The speed of the vanish may be regulated to suit the performer by a pneumatic valve. The ultimate in cage vanishes.

2002

CHALLENGE CAGE MYSTERY

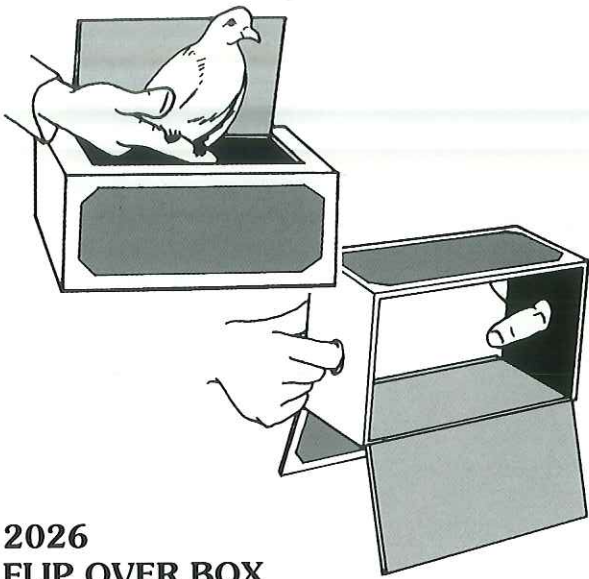

If you are looking for a real miracle you can do in the midst of spectators, this is it. You exhibit a substantial looking cage with a canary inside and ask the spectators to place their hands on the cage, yet from under their grasp, bird and cage disappear! A reputation builder and one of the most talked about effects in magic. The Owen improved Lindhorst-type vanishing bird cage is "surefire," will stand rigid and is silent working. Several of the country's top birdcage performers have acclaimed it the world's finest vanishing cage. The cage has highly polished solid stainless steel bars.

2035

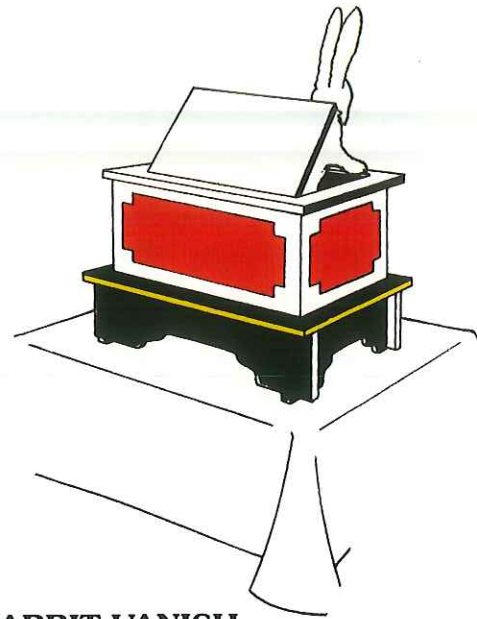

DOVES FROM AIR

The magician with a net apparently catches doves in the air which he places in a basket. Our new improved net and basket have never been equaled for practicality and beauty.

**2026
FLIP OVER BOX**

Into a double lid box the magician places livestock and holds the box thru a hole in each end, the box is allowed to roll - completely over, causing both lids to drop open, disclosing the box absolutely empty. One of the finest vanishes ever, the Owen box will handle a three to four pound rabbit and has an exclusive construction feature making it superior to any other make.

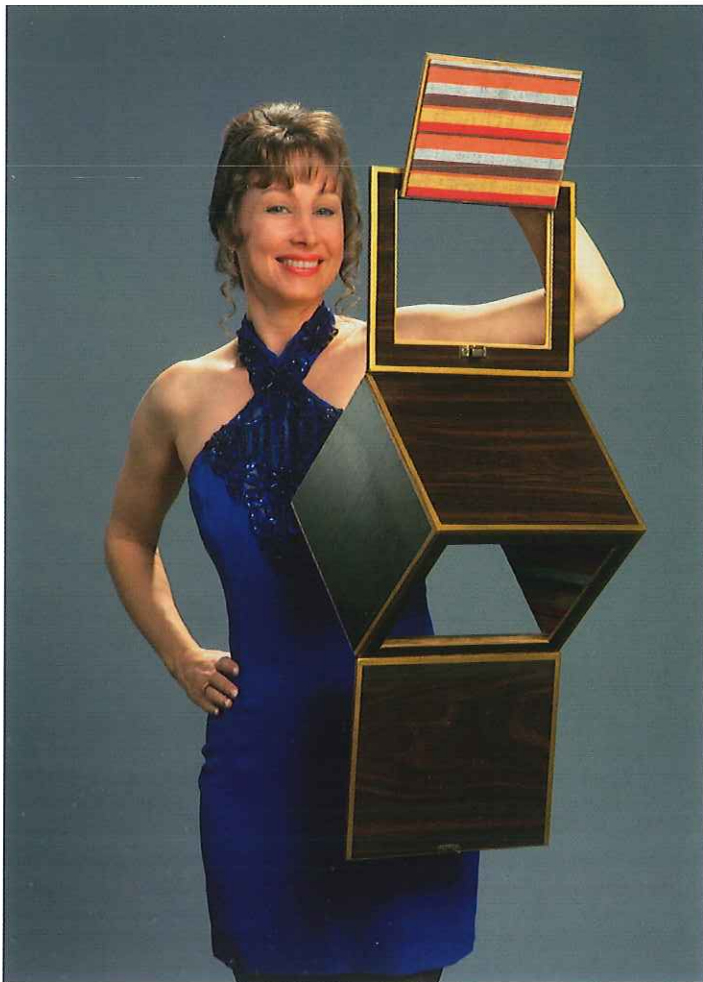

**2012
RAPID RABBIT VANISH**

Use as an adjunct to the Owen Rabbit Hutch for the vanish of livestock. After placing the livestock in, the box is completely taken apart and all sides shown. The base has an added effect for a fine finish. The entire apparatus packs flat.

**2043
SWORD OF CREATION**

The front and back doors of a beautiful flat cabinet are dropped down to reveal an empty interior. A gleaming metal sword is inserted in the center of the cabinet. The doors are then closed. On command from the magician the doors are opened to magically reveal up to four live doves perched on the sword. Can be done surrounded.

1322
SEE-THROUGH BUNNY BOX

How fast can a bunny go? Pretty fast! There's no doubt he went in, but a second later, when you tip the box over, he's gone! So far, so good, though nothing new, but when you lift the box, the lid, top and side fall away permitting the audience to see clear through! If the box is on a draped table at the start, they are certain to think the rabbit is under the drape; you can exploit that situation to the maximum!

Bill Taylor's novel vanish is practical for most performing situations since, unlike most other take-apart or fall-apart vanishes, there are no side angles. Available by special order to accept almost any small animal.

2037

DOVE FLIGHT

A dove is placed in the fold of a cloth mat. With an upward tossing motion, the mat is snapped open and a white silk handkerchief flutters to the floor; the dove apparently changing to a silk in midair. A startling, beautiful effect which is self-contained and requires no body loads.

2003

ENCHANTED RABBIT HUTCH

An Owen creation for the production of a rabbit, several doves or any small livestock. The hutch is empty, and yet visibly, in a flash without covering, the livestock appears behind the glistening bars. No black art, no curtain, can be done surrounded.

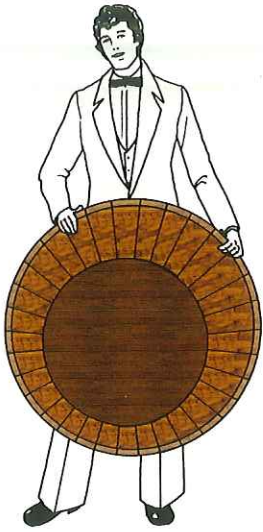

**2042
PROTEAN MYSTERY**

A dove is placed in a beautifully decorated cabinet and the sides drop away revealing a large cockatoo or other large bird. The dove has vanished. Visual magic at its best. A fast paced effect designed to startle an audience. Any combination of a small and large (small dog size) animal can be used.

**2039
CIRCUS PARADE ANIMAL PRODUCTION**

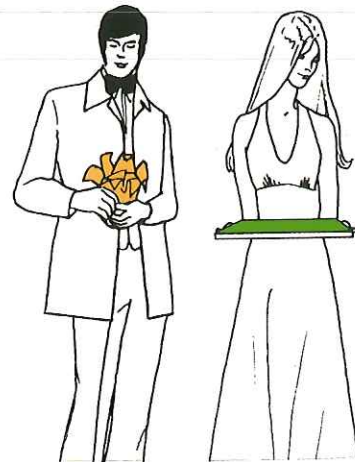

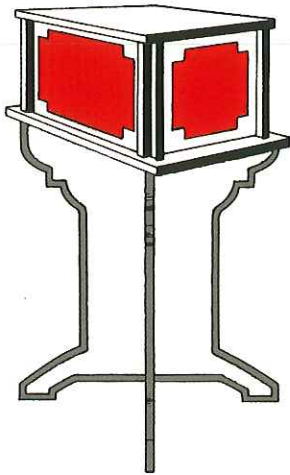

A mini circus wagon complete with polished metal bars is seen to be empty. If desired, a balloon can be placed inside the wagon. At the command of the magician, the balloon breaks and in its place is a dove, rabbit, or other small animal. No cover is used. This is an instantaneous and visual production. The entire circus wagon is handcrafted in the fine quality expected of Owen Magic.

**2007
DUCK TUB**

A large wooden tub is shown empty, filled with water and suddenly out pop 6 or 8 live ducks dripping wet and quacking gayly. The Owen tub is of all prime hardwood staves bound with lustrous copper bands and furnished with heavy duty handles. It has a heavy aluminum lining welded at the seams and is sealed for waterproofing. The release traps are positive and allow each chamber to be loaded individually while all release at the same time. The tub is set on a massive hardwood base which folds to pack inside of the tub. Fantastic quality is the only way to describe this outfit.

**2013
ATOMIC DOVE VANISH**

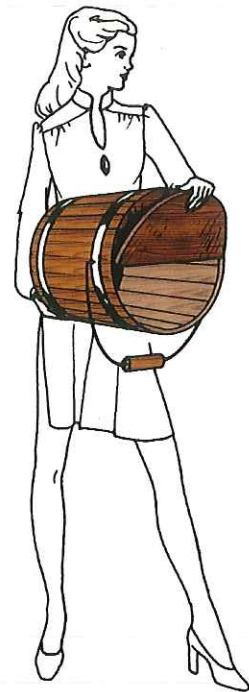

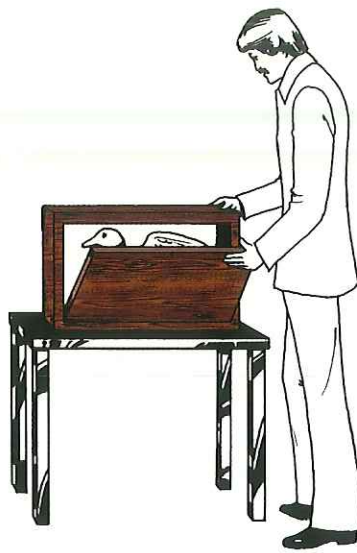

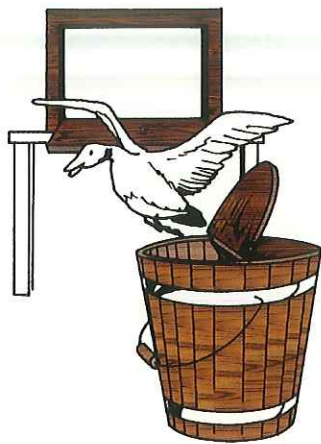

A nicely decorated box is built up of four side sections and a top on an undraped table. Several doves are placed in the box which is immediately taken apart and each piece shown on both sides. The table top is then removed and finally the table itself is taken apart and shown. No trace of the birds remain.

**2014
PROFESSIONAL
CAGE VANISH**

A cage of doves is covered with a foulard, lifted from a table and tossed into the air to vanish. Owen was the first to offer a vanishing cage of doves to the magic fraternity and through the years have consistently striven to improve this effect. This cage will vanish with 6 doves, has a single push button release and is probably one of the world's most copied pieces of magical equipment. However, the copies have never approached Owen quality.

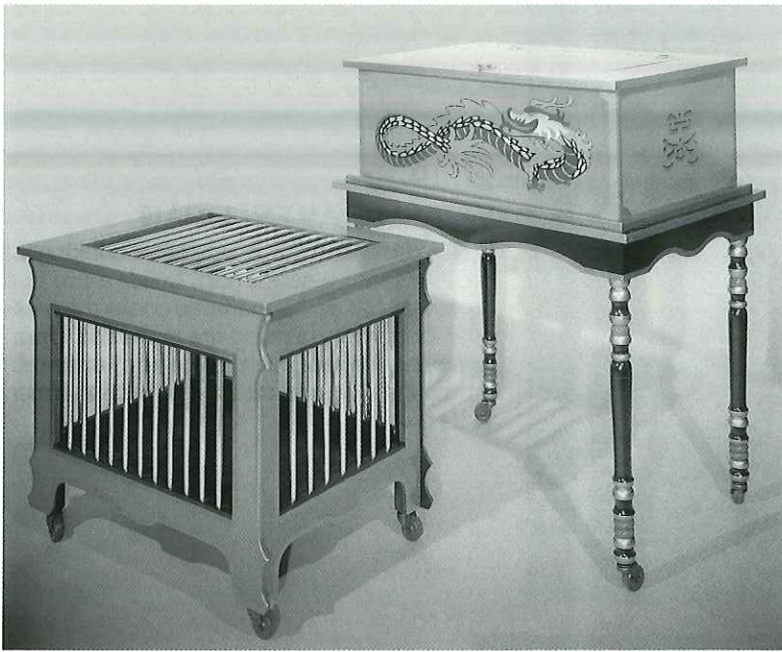

**2008
SUPERBA
WONDER TRAY**

A small animal or a bird is wrapped in paper from a tray. The performer suddenly crushes the paper and tosses it empty to the audience. Very startling and unusual and worked without body or table work.

**2006
OWEN
DUCK DE LUXE**

A genuine Owen first, copied but never equaled. A wooden bucket trimmed with copper bands is shown empty and taken into the audience. A live duck is placed in the box. The box immediately tipped open to the audience, the duck vanishes and is magically transported to the bucket in the audience. Top audience impact in high quality cabinet work. Bucket and box are each available separately.

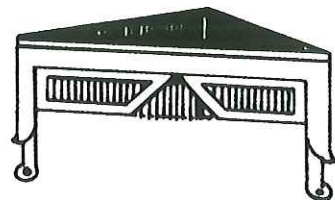

**2011
DUCK VANISH**

A most beautiful version of the Hong Kong Duck Vanish wherein several ducks are taken from a cage and placed in a box. The box is then dismantled, each and every piece shown and placed on the cage. Finally the table the box was sitting on is dismantled and proven to be merely an empty frame. "Where do the ducks go?" The cage has all metal bars and all parts of this illusion are beautiful beyond description. Several unique innovations have been added to this illusion by Owen Magic.

**2034
MYSTERIOUS DUCK PRODUCTION**

The magician displays two oval trays from a skeleton stand and places one tray on the stand, then a tub on the tray and covers it with the second tray. At a clap of hands the cover is removed and out flaps Mr. Duck. The stand comes apart and the entire outfit is handsomely decorated.

2009

WELSH RAREBIT PAN

In this classic the magician places cooking ingredients into a sauce pan, builds a fire in a borrowed hat and apparently cooks the mess over the merrily burning fire in the hat. Upon removing the saucepan lid out hops a live rabbit and the magician returns the hat unharmed to its owner.

2044

DOVE CONES

Two large sized metal cones are shown to be empty. They are put together mouth to mouth and a wand is dropped down through them to further prove them empty. An entire pitcher of liquid is poured into the top cone but doesn't come out the bottom. The magician produces silk handkerchiefs from the cones. The cones are then separated and flames of fire spring from them. The cones are rejoined to extinguish the flames and when separated again a live dove emerges from the cones. A beautiful combination production effect.

2001

OWEN

COLOSSAL DUCK PAN

2033

OWEN DUCK PAN

The magician places cooking ingredients into a large pan and sets it on fire. A lid is placed on to extinguish the flames and when removed a full grown duck waddles forth or several rabbits. Truly an effective and excellent livestock production by Owen. Heavy gauge, highly polished spun aluminum in low profile.

2030

OWEN DOVETTE PAN

A heavy duty small pan for producing flowers, candy, chicks or even birthday cookies for the small ones. An empty pan, the cover clapped on, removed, and there you have it!

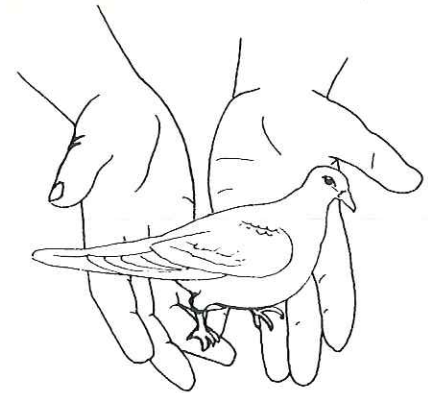

2020

OWEN CHAFING DISH

In a fine spun utensil the magician lights a napkin and to extinguish the flame quickly places on a lid, which upon removal reveals 2 doves or a small rabbit. The Owen pan has a non-fail release mechanism and is made to last indefinitely. The single load pan is of somewhat lower profile than the Owen super double load pan with which a second production can be made immediately after the first. Extra pans are available.

Single Pan No. 2020/1
Double Pan No. 2020/2

**2004
DOVE PRODUCTION**

The Owen dove production is the method used by the world's leading performers. An Owen quality product resulting from years of experience and improvements. For the bare-handed production of doves from silks this has no equal.

**2017
PRODUCTION CAGES**

The Taylor patented cage owned by Owen is the world's finest production cage. Of solid dural and stainless steel it looks like a real bird cage, opens automatically, stands rigid and can be done surrounded. We suggest Owen rubber birds for this effect.

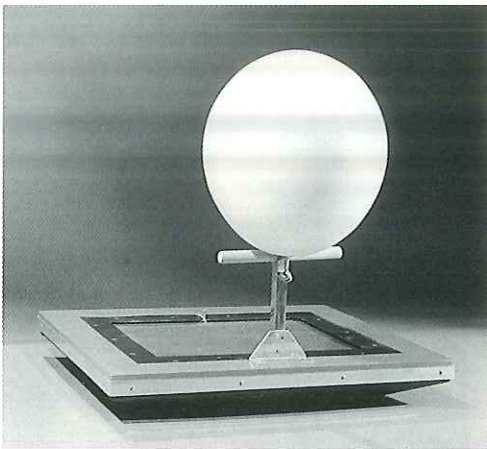

2017A: 8-½ inch 2017B: 14 inch 2017C: 18 inch

**2025
CRYSTAL DOVE COTE**

A white dove makes an instantaneous appearance within the confines of a crystal clear glass box. The impossible nature of this feat is difficult to comprehend. No outside loads, mirrors, body work or anything to hamper the magician; just sheer magic in breathtaking beauty. We now offer this in two versions: An all lucite crystal cote or wood framed glass. Both are equally effective and charming.

2025A: Lucite 2025B: Glass

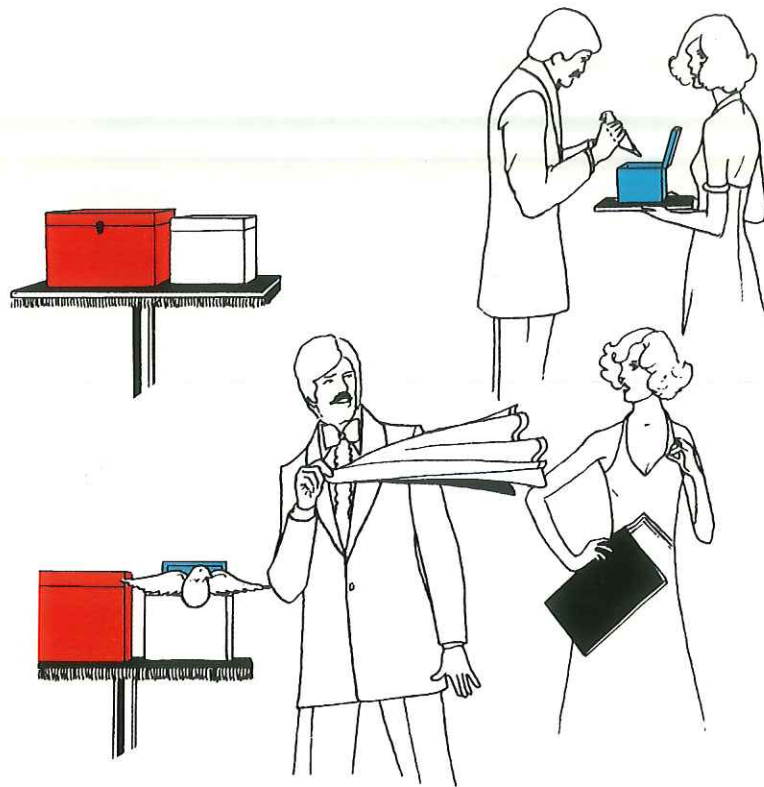

**2018
OWEN DOVE IN BALLOON**

A balloon is inflated and attached to an upright perch mounted on a thin tray. A dove is vanished, the balloon bursts and the dove appears fluttering on the perch. Since its introduction the Owen dove in balloon has been acclaimed by all using it as the finest piece of equipment of its type ever offered to the magic fraternity and not to be compared in any manner to any other make.

**2023
SHANGHAI
DOVE PRODUCTION**

Two wood frames covered with paper are placed on the front and back of an open easel type frame. The magician breaks the paper at various points and produces a dove or pigeon. In this manner 4 to 6 birds are produced and the paper torn away to show everything unprepared. The outfit takes apart and folds for packing.

**2022
BANNER NEST OF BOXES**

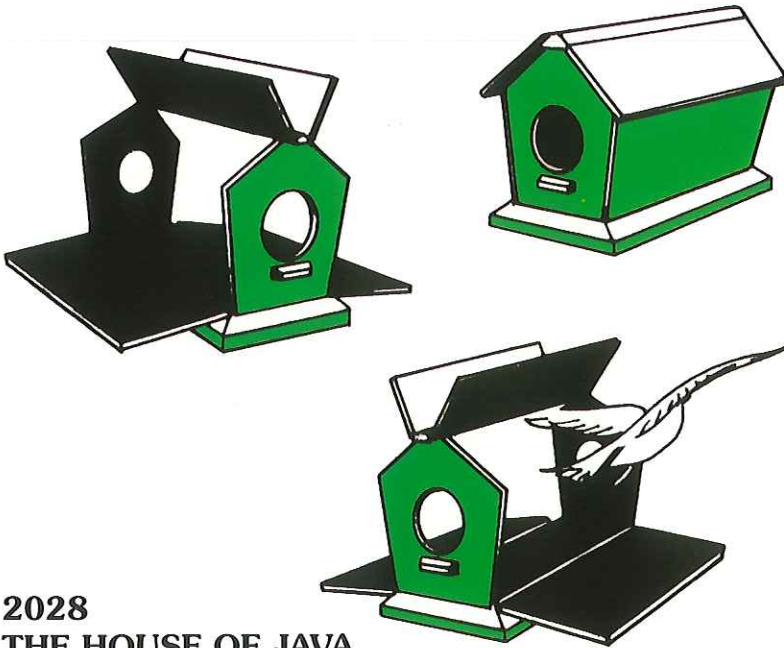

The performer removes a small blue box from a white box which he has removed from a larger red box. The blue box is placed on a tray held by an assistant and the empty white box replaced in the red box. A dove or rabbit is next put into the blue box on the tray and covered with a foulard. The box is then lifted with the foulard, tossed into the air where it vanishes. The performer now opens the red box, extracts the white box, which upon being opened discloses the blue box and when this is opened there is the missing dove or rabbit. One of the finest bits of magical business available.

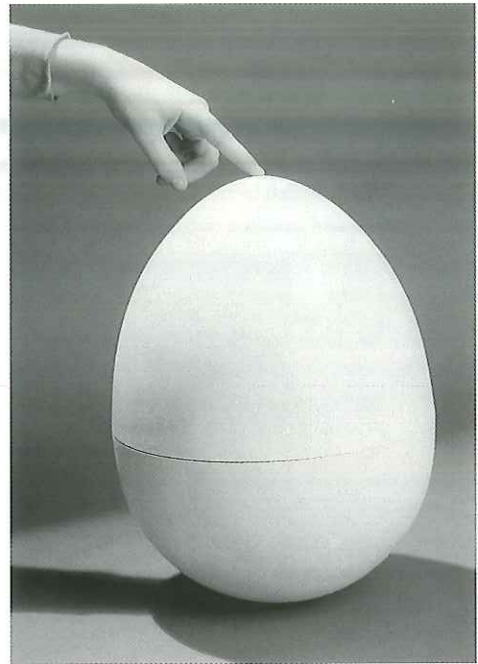

2010
CHANNING POLLACK
DOUBLE DOVE PRODUCTION

Owen Magic takes great pride in releasing to the magic world the only true double dove production. Exactly as conceived and performed by Channing Pollack in the top show spots of the world. Owen Magic offers this effect to you with Channing's full and exclusive permission and with his personal instructions to enable you to properly present and perform this outstanding feature.

2028
THE HOUSE OF JAVA

A small exotic bird house is demonstrated empty by opening both sides and the roof. The performer then places a silk, an egg or whatever in the house thru the bird entrance. When the house is opened the object is transformed or vanished at the magicians will. Perhaps a white silk to a white Java dove. Decorated in four colors and superbly built by Owen.

2029
DINOSAUR EGG

A truly mammoth egg for ducks, geese, rabbits or whatever. An outstanding production item, of spun aluminum that breaks apart.

2032
BIG EGG

Marvyn Roy said "this is what the audience wants, something different. Use the big egg with doves for a bare hand production then break the egg and you have a dove or candy. Sensational." Precision spun in aluminum and finished in egg shell color.

2038

GONE BEYOND BELIEF

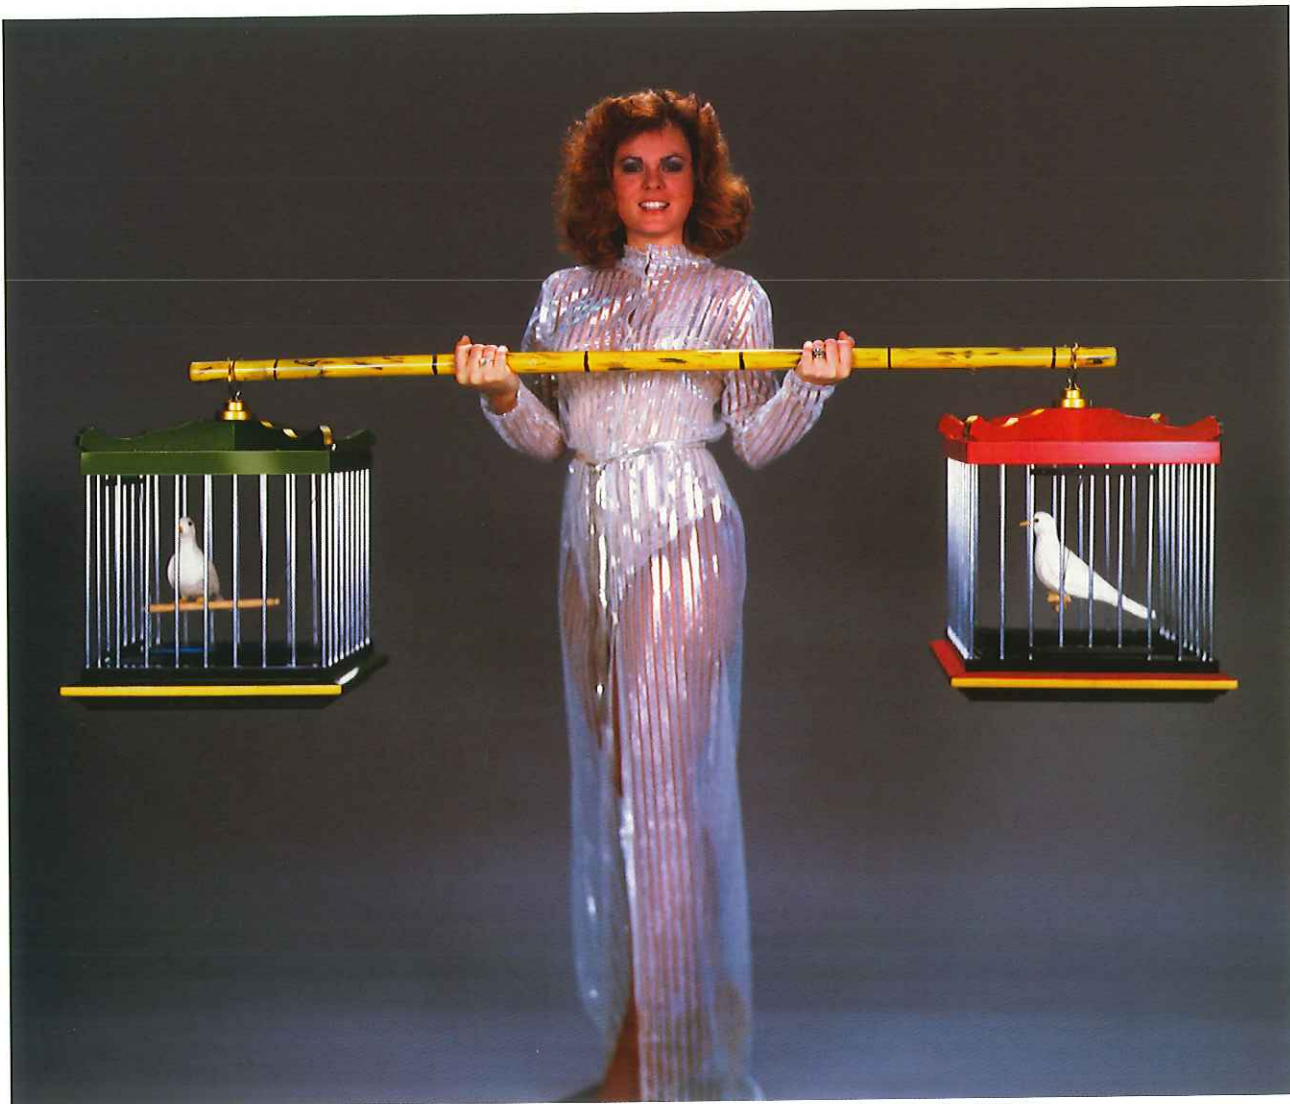

Designed to satisfy the needs of an apparatus to vanish a large rabbit or small dog, etc. This effect comes complete with the table base. The animal is placed within the box, ready for the vanish. The top and sides of the box are disassembled showing each part empty front and back. The table base and the thin box bottom are all that remain. A clever new principle is used to effect the vanish.

2016

MASTER CAGE ILLUSION

Several doves vanish visibly from one cage and instantly appear in another similar cage placed some distance from the first. No covering of the cages are used at any time. Cages may be used independently as a single vanish or appearance.

2019
CLASSIC COCKTAILS

A napkin is shown on both sides and folded. Several different cocktails are poured from the napkin immediately followed by the production of a live dove. Self-contained and done close-up. Special matching dove jacket, self-contained napkin and 4 drink concentrates included with full instructions.

2024
BIRD SEED

A small four paneled screen with the words bird seed printed in large letters on front and back is folded into a tube and from the tube a live dove is produced. A cute and snappy production.

2021
HAUNTED BIRD CHEST

An entirely different method of vanishing 4 doves with an automatic self-contained apparatus in the form of a chest. The birds are placed in the chest and the latter is then taken apart and each piece shown on both sides with no trace of the birds. No assistant is necessary and the effect may be done at very close distances from the audience. This chest is a fine work of art.
